

U.S. General Services Administration

# GSA and CA OES Counter-Drug Procurement Seminar on the 1122 Program

Vehicle acquired through 1122 Program

The 1122 Program is a federal program that authorizes state and local agencies to purchase law enforcement related equipment and services suitable for counter drug activity through GSA, the Department of the Army and the Defense Logistics Agency.

This program was authorized by the National Defense Authorization Act of FY1994 and became law under Title 10 Section 381. The Office of Emergency Services (OES) has been designated as the Lead Agency for the California Counter Drug Procurement Program.

GSA in conjunction with the CA OES 1122 Program have worked together to save California state and local governmental agencies more than \$12 million since 1997. The program's purchasing advantages are achieved through discounts that are available to the federal government due to their large volume purchases.

As government officials, we all know the importance of financial conservation, especially in California. Please join us at this seminar to learn how participation in the 1122 Program can provide significant cost savings to your agency. All California state and local Law Enforcement Agency purchasing officials and fiscal managers are invited to attend.

## Your presenters from GSA and CA OES will cover:

- Overview of Counter-Drug Procurement Program (1122 Program)
- Benefits/Value of Participating
- How to Participate
- What's Available to Purchase through GSA for the 1122 Program
- Briefing of All GSA Federal Procurement Programs Open to

**February 25, 2009**  
10:00 a.m. - 12:30 p.m.

**Tachi Palace Hotel**  
Salt Grass/Tule Rooms  
17225 Jersey Avenue  
Lemoore, CA 93245-9760

**(559) 924-7751**  
**[www.tachipalace.com](http://www.tachipalace.com)**
